

Who We Are

Shepherd's Gate is more than just a shelter providing the essentials. We offer a comprehensive approach to healing that includes assisted recovery, learning & career center, personal case management, off-site professional therapy, and spiritual growth.

Since 1984 we have served over 15,000 women and children between our Livermore and Brentwood campuses.

Why Partner with us

Success Rate

Over 80% of our graduates after one year still have permanent housing, jobs or are in college, are active members in their church and continue to live a sober life. We seek long-term solutions in helping women transform their lives.

The Whole Child

Most of the children come to us having experienced horrific trauma. Our program focuses on all aspects of each child so they can overcome the pain of abuse and neglect.

Privately Funded

We receive no government or state funding. Fiscal Year 2023-2024, 82% of every dollar we received goes directly to help rescue women and children from homelessness, sex trafficking, addiction and abuse.
